

**February 13, 2013, Video Conference Advance Questions
Oregon Institute of Technology**

For each of the following please provide information you would like to share with colleagues at other Oregon DQP institutions. We ask that by February 6, 2013, you email your responses as an attachment to DanskineM@lanecc.edu. Shortly thereafter all responses will be available for public viewing on the DQP website (<https://oregondqp.lanecc.edu/>) in the "Conferences" section of the "About the DQP Project" page.

1. Although the DQP work is still in its early stages, describe progress you may have made in clarifying, refining, or implementing your Work Plan?

We are in the process of implementing our 2012-13 Work Plan and have made the following progress:

- *June 2012—the DQP campus team was appointed by the Provost and held an initial meeting.*
- *October 2012—the DQP team attended the October DQP conference and reported back to the Executive Committee of the Assessment Commission.*
- *January 29, 2013—the Provost issued a charge to review general education at Oregon Tech using the DQP as a comparison tool.*
- *February 2013—the Provost is forming an ad hoc committee for this year review process.*
- *February 2013—one technical and one allied health program have been targeted to map program outcomes to the DQP and provide feedback on the process.*

2. How has the work to date with the DQP informed your thinking on the identification and alignment of learning outcomes and assessment of student achievement of those outcomes?

To be determined: it is still too early in our process; we expect this to occur in year two of our Work Plan during the analysis phase.

3. What focus/activities for the May conference would be most helpful in working through your Work Plan?

We would be very interested in any presentations on the use of the DQP for program review, specifically general education programs.
