

**February 13, 2013, Video Conference Advance Questions  
(Tillamook Bay CC)**

For each of the following please provide information you would like to share with colleagues at other Oregon DQP institutions. We ask that by February 6, 2013, you email your responses as an attachment to [DanskineM@lanecc.edu](mailto:DanskineM@lanecc.edu). Shortly thereafter all responses will be available for public viewing on the DQP website (<https://oregondqp.lanecc.edu/>) in the "Conferences" section of the "About the DQP Project" page.

1. Although the DQP work is still in its early stages, describe progress you may have made in clarifying, refining, or implementing your Work Plan?  
Completing first DQP spider web has helped clarify plan for next spider web effort.
2. How has the work to date with the DQP informed your thinking on the identification and alignment of learning outcomes and assessment of student achievement of those outcomes?  
Completing first DQP spider web has led to identification of course and program outcomes to be revised to make more measurable for assessment of achievement.
3. What focus/activities for the May conference would be most helpful in working through your Work Plan?  
Work Plan still lacks specifics about horizontal and vertical alignment projects. More information on school and/or state efforts beyond institutional work would help.
