# About a few of LBCC Initiatives

- Reverse Transfer
  - One of the pilot colleges
  - Participating in Oregon Reverse Transfer grant
- Achieving the Dream
- Education Redesign:
  - Increase Student Completion by 50%
  - Ensure completion is demographically representative
  - Ensure completion betters one's life and contributes back to our community

## Win-Win Data (as of Sept 2012)

- Number of records **sent to degree audit: 510**
- Number of students **eligible for degree: 19**
- Number of students **potentially eligible: 184**
- Number of students in neither/unresolved category: 307
- Number of students missing math: 263
- Number of students missing writing: 432

# Course Substitutions

- With potentially eligible students we used a somewhat flexible writing requirement:
- ... as long as a student completed 3 writing classes (taken from WR 121, 122, 123 or 227), they met the requirement

# Degree Audits

- Ran degree audits using the **AAOT** and **AGS** for all students
- Used Conclusive System Software
- **For our degree partnership students** (OSU and LBCCC) we contacted OSU, got transcripts, evaluated the transcripts then ran another degree audit to see if they have earned a degree

# Outreach to Potentials

- We **evaluated all student records**
- Decided not to concentrate on students who are missing the Math component for the AAOT

## Old Policy

- **Residency:** Students must take 24 *of their last 35* credits at LBCC to receive a degree
- **Recency:** Students must take at least one credit in the year they want to graduate

## New Policy

- **Residency:** Students must take 24 LBCC credits to receive a degree
- **Recency:** Students must use a graduation checklist from one of the past 5 years (must take at least one credit in that year)

# Policies Impacted
