# What we learned?

- Few to none were missing the PCC residency requirement (24 credits)
- Various general education requirements (e.g., math, writing, arts & letters, lab science, etc.) were the most common barrier
- If student did not meet the AAOT benchmark, overall credits/electives were not a barrier
- Few students were currently enrolled
- Opt out

# Locating potentially eligible students

*“We do not have an easy method to identify which of our former students’ addresses are currently valid.”*

- PCC will use student addresses that are less than 2 years old
- QAS Pro’s “skip trace” function for older address

# Completion Initiatives

In 2011 PCC ranked 13 in top 100 community colleges awarding degrees

- Project Degree Completion (past 3 yrs)
  - PCC awarded over 496 degrees & certificates

# Next steps

- Review potential eligible list and audit for AGS awarding
- Outreach to “Potentially Eligible” population
- Embarking on reverse transfer with Portland State University
  - Reviewing sample data now
  - Seem to be few barriers to this reverse transfer
  - One item to be determined: how to notify co-admitted student, in advance, that PCC is awarding degrees this way
