1. Software Licensing – Creative Commons

- The group discussed the use of Creative Commons for software licensing.
- Kyle shared that Creative Commons recommends that their product not be used for open source (http://wiki.creativecommons.org/Frequently_Asked_Questions#Can_I_apply_a_Creative_Commons_license_to_software.3F).
- We agreed to share anything that is created as an outcome of the grant.
- Creative Commons does recommend alternatives.
- Connie suggested that we are clear with the following point: we are committed to sharing what is developed and produced
- **Action item: Kyle Schmidt will contact Cable Green with Creative Commons for suggestions on open source solutions.**
