

DQP Fall Conference: Using the DQP To Align Curriculum

October 25, 2013

Chemeketa Eola, 215 Doaks Ferry Rd. NW, Salem, OR 97304

Oregon has a history of successful statewide partnerships among its postsecondary institutions, despite the absence of a unified state system. This history makes our collective work on the DQP possible. Oregon DQP's overarching goal is to take steps toward developing, validating and implementing a flexible and non-prescriptive curricular framework that describes, and where possible, aligns degree-level learning outcomes for students in Oregon's community colleges and four-year colleges and universities. In the first year of the grant, we spent time comparing the DQP to our institutional outcomes. In year two and three, we will be working on aligning learning outcomes among and across institutions.
